

**Amendments to the Specification:**

Please amend page 7, lines 16-19 of the originally-filed specification as follows.

The insert 6 in FIG. 3b differs from the insert in FIG. 3, on the one hand, by way of its conical outer contour; on the other hand, the insert 6 has a cutout 16 into which is clipped a washing nozzle 9 designed as a point-jet nozzle. Further, the insert 6 comprises two half-cylinders 27a, 27b, which are connected integrally to one another via a film hinge 28, the functions of which are discussed in further detail below with respect to Fig. 4.
